ELECTROMECHANICAL CO. LTD.

Job Title: Project Manager	Revision Date: May 6th, 2006
Department: Operations	Job Grade: Senior

Position Overview

A leading Electro-Mechanical Construction Company (www.almuruj.com) located in Jeddah, Saudi Arabia, seeks an ambitious and experienced Electro-Mechanical Engineer for the position of Project Manager.

The successful candidate will be responsible for the planning, scheduling, and execution of a variety of complex electro-mechanical projects from start to completion.

An attractive remuneration package including accommodation and bonus will be offered.

Requirements

- Technically proficient with an Electrical Engineering degree from a reputable University (preferably AUB)
- Minimum 5 years of relevant electro-mechanical contracting experience
- Deep knowledge of construction management methods and electro-mechanical distribution and control systems

Other Skills/Abilities

- Strong organizational, communication, negotiation and problem solving skills
- Results-oriented, cost-conscious and quality-minded
- Ability to command execution staff and develop strong working relationships with peers, clients and management
- Ability to perform under pressure and ensure that work is completed within the required timetable and budget
- Team player
- Computer literate (Office Productivity Software, Project Management Software)
- Good command of Arabic and English, both written and verbal

INTERESTED AND QUALIFIED APPLICANTS SHOULD SEND A COPY OF THEIR C.V. TO: info@almuruj.com
